Residents are invited to Bell Park Open House- Phase Two

The City of Greater Sudbury continues to need your participation and feedback for the redevelopment of the parking area at the now closed St. Joseph Hospital.

The City has retained Yallowega Bélanger Architecture to lead this important initiative and will be holding an Open House at Tom Davies Square on January 30 from 4p.m. to 7p.m.

Using the feedback given by residents from the initial public consultation held on November 21, 2013, as well as the online survey, the project team will continue the process by summarizing the comments from the community survey, presenting the work completed to date, and presenting preliminary design options.

We look forward to receiving your feedback and community input on the project development at this Open House.
